President's Letter

This commentary is the last one for the 2010-2011 GNCC season. It was a year of many changes. Among those changes was the end of the Slide era in our club as well as the decision to move venues for future meetings. The next President's Letter will come under our new name, The Manhasset-Great Neck Camera Club. Of significant interest to me is that to date I have received more than 10 phone calls from non-GNCC people who are interested in joining or attending the meetings under our new name and location starting next September. I am personally thrilled with this and hope to hear from more people as the summer goes on.

I would like to personally thank each member of the Board of the GNCC for their dedication and tireless contributions to our club. Without them we would not be where we are and where we will be going in the future. My thanks to all of them.

And I also want to thank those members who actively aided in the evolution of our club. I hope that their efforts will continue into the new year.

I also specially want to thank Anne Yamins for her steadfast and incredible contribution by her work on the Color Wheel. Anne will not be doing it next year so we will need a replacement for her which will not be an easy show to fill. The thanks of the Board and the GNCC to Anne for all her work.

Respectfully,

George Novello
President

Our New Year
will begin Sept 12th at the

On May 31st the exhibit "**Richard Avedon Photographer of Influence**" open at **the Nassau County Museum of Art** located at 1 Museum Drive Roslyn Harbor.

This is an exceptional exhibit including many, but not all, of the photographs that made Richard Avedon one of best known and appreciated fashion photographers of 50's & 60's. What are included are his photographs of Marilyn Monroe, Truman Capote, Twiggy, Brigitte Bardot, the "Duke & Duchess of Windsor", Bob Dylan and many others. As well there are copies of some of his better known Fashion photographs of such as Suzy Parker "the world first supermodel" which featured magazine Harper's Bazaar and Vogue. There are also copies from "In the American West" published in 1985 which were photographs of ordinary people he found in small towns of the west & Midwest.

In the library they showed the PBS episode of "American Masters" on Richard Avedon discussing his development and philosophy.

Upstairs is a small exhibit by the artist Josef Albers "Formulation: Articulation". This is truly interesting to anyone who has tried to understand how dark vs. light colors and shades effect how shapes are preserved.

Both shows run through September 4th Tuesday through Sunday. Further information can be found at Nassau County Museum of Art's website www.nassaumuseum.org/exhibits.
